DREER'S Wholesale Price List of Plants for Florists.

Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown.

Our Measurement of Plants, where given, as in the case of Araucarias, Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

An Invitation. Whenever possible, we solicit a personal inspection of our stock. Our Nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York (Time Tables on application), and something of interest will always be seen. We have considerably increased our facilities for the handling of Aquatic Plants, and our Water Lily Garden is now the largest and most complete in the world. This alone is well worth a visit from the most distant points. Aquatics are at their best from early July until late September. The collection not only includes large lots of the most popular sorts, but all the latest introductions and many new sorts of which we possess the entire stock, and which have not yet been disseminated; the different varieties of Victorias luxuriate here, and from present indications feel safe in saying that one or more sorts will be found in flower any day during the season.

AGERATUM STELLA GURNEY.

Acacia Armata.

A pretty spring flowering variety which produces its flowers in globular heads from the axils of the foliage in such a manner as to completely envelop the plant in a pleasing light yellow; an excellent plant for Easter forcing, succeeding under the same culture as the Azaleas. A nice lot of bushy plants in 5 inch pots. 12 to 15 inches high. 40 cts. each; \$4.50 per doz.; \$35.00 per 100. Ready in October.

Ageratum Stella Gurney.

This variety originated with Mr. James Gurney, of the Missouri Botanical Gardens, where it has been used extensively as bedding plant the past summer. It is a decided improvement in color, being the deepest blue yet introduced and is exceptionally free flowering, not only in summer but the year round.

75 cts. per dozen; \$6.00 per 100.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are of a very rich yet delicate tint of yellow, deliciously scented. 3 inch pots, 15 cts. each; \$1.50 per dozen.

Aspidistra Lurida Variegata.

A fine lot of 5 inch pots. 50 cts. each; \$6.00 per dozen.

The most curious and interesting of all Aristolochias, the flowers are heart shaped, 8 to 10 inches in diameter, of a creamy white color, the interior beautifully mottled with deep claret purple, deepening towards the throat to solid purplish maroon. An exterior view of the flower resembles a duck, hence the name.

We are handling the stock of one of the most successful specialists, and can supply in November fine bushy plants, 12 to 15 inches high, finely set with buds, \$4.50 per dozen; \$35.00 per 100.

SPECIMEN AZALEA.

Import Orders for

AZALEAS

Special Prices for Immediate Orders.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

Our growers in Belgium are among the most successful men handling Azaleas; they have been specialists in this line for many years, and their principal stock is sent to us.

All of our importations of Azaleas are sent here in bulk, and are all repacked at our own nurseries, so that any plants that may have not carried well are set aside. This insures our customers of securing only first-class stock, which cannot be compared with cheap assorted case lots, which are made up in Belgium and are distributed on this side just as received, frequently not only containing damaged plants, but also, as a rule, many varieties not at all suited to the American trade.

The varieties we supply are only the most popular sorts suited to the American market. Our own representatives make personal inspection of the plants in Belgium previous to shipment, thus enabling us to guarantee satisfaction.

DRACÆNA GODSEFFIANA.

Dracænas.

Godseffiana. One of the most striking ornamental foliage plants of recent introduction. The plant is of an entirely different habit and appearance from all other Dracænas; of free-branching habit, and throws out many suckers from the base so as to form beautiful, compact, graceful specimens in a short time. Its foliage is broadly lanceolate, 5 to 6 inches long, and 2 to 3 inches wide; of a strong, leathery texture; rich dark green color, densely marked with irregular dots and spots of a creamy white, not unlike an *Aucuba Japonica*; will undoubtedly be grown extensively for decorative purposes when it becomes more plentiful, as it is very hardy as a house plant, equaling, if not surpassing in this respect, the *Aspidistra* and *Ficus*.

One of the prettiest tender climbers, with yellow flowers resembling that showy orchid *Oncidium varicosum*. These are produced very freely during the entire summer months. Japanese Nananized Evergreens.

(*Thuya Obtusa Nana*.)

We have an interesting lot of these curiously trained dwarfed trees, many of them nearly a century old. They are quite popular at present, and frequently exorbitant prices are paid for them at Japanese sales.

Our stock is all established in pots, which ensures their success \$3.00 to \$6 00 each, according to shape of plant.

BOSTON SWORD FERN. See offer on page 6.

Adiantum Caudatum and Adiantum Dolabriformis.

Two pretty species especially adapted for baskets. They are of a peculiar creeping or drooping habit, with long fronds, at the ends of which young plants are produced.

3 inch pots, \$1.25 per dozen ; \$10.00 per 100.

Adiantum Rochfordianum.

A most desirable form of *A. cuneatum* with somewhat larger pinnæ of a darker green color, forming a more compact plant, especially valuable to grow as a pot plant.

2½ inch pots, 75 cts per dozen ; \$5.00 per 100.

Alsophila Australis.

We have again this season a fine supply of this useful, quick-growing Australian Tree Fern, and offer strong 2½ inch pots, \$1.00 per dozen ; \$8.00 per 100.

Aspidium Tsussimense.

Without question the most valuable of all Ferns yet introduced for Fern-dishes ; of strong but dwarf and graceful habit ; of good color and of better keeping quality than any other fern we know. Heretofore we have been able to offer this variety only in limited quantity, but this season our stock consists of nearly 60,000 plants, and are therefore able to quote it at a popular price.

2 inch pots, \$4.00 per 100 ; \$35.00 per 1000.

Asplenium Bulbiferum.

This variety is but rarely seen in this country, but is grown in large quantities in Europe, especially in England, where it is considered one of the most important Ferns for house decoration ; it is a most valuable variety to grow into 5 or 6 inch pot plants.

We offer a fine lot in 3 inch pots.

\$1.00 per dozen ; \$8.00 per 100 ; \$75.00 per 1000.

Fine Ferns.

As usual our stock of Ferns is very large, about 500,000 being now in pots ready to send out. Our collection has been especially selected for florists' use, discarding all such as are only useful in a botanical collection.

Choice Varieties of Special Merit.

Adiantum Farleyense.

Nice young, thrifty stock for growing on.

3 inch pots, \$2.00 per dozen ; \$15.00 per 100.

4 " " 5.00 " 40.00 "

5 " " 9.00 " 70.00 "

Adiantum Lathomi.

Always scarce, and in our estimation (excepting *A. Farleyense*) the most beautiful *Adiantum* in cultivation, for growing into specimen plants. We have a fine lot of 3 inch pots which we can supply at \$1.50 per doz. ; \$12.00 per 100.

Adiantum Rhodophyllum.

This variety is always scarce, and while it does not compare with *Farleyense* in a large specimen, in a small plant it resembles it very much, and has the advantage of succeeding under ordinary cultivation.

2 inch pots, 75 cts. per dozen ; \$5.00 per 100.

3 " " \$1.25 " 8.00 "

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns for use in decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

5 inch pots, 75 cts. each ; \$ 7.50 per dozen.

6 " " \$1.25 " 12.00 "

7 " " 1.50 " 15.00 "

8 " " 2.50 " 25.00 "

Cibotium Princeps.

Similar to the above, but with broader shorter foliage.

4 inch pots, 50 cts. each ; \$5.00 per dozen.

5 " " 75 " " 7.50 "

Doreopteris Nobilis.

It is only at rare intervals that we are able to offer this handsome Fern in quantity. We have a fine stock this season in 2½ inch pots.

75 cts. per dozen ; \$6.00 per 100 ; \$50.00 per 1000.

Microlepia Hirta Cristata.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is of such a delicate, graceful appearance, that would lead one to think that it was useless as a house-fern, it is, nevertheless, one of the best for this purpose, and when well grown meets with as ready sale as the popular Boston Fern. It is seldom that we are in a position to offer it in quantity ; this season our stock is exceptionally large, which enables us to offer it at the following low prices :

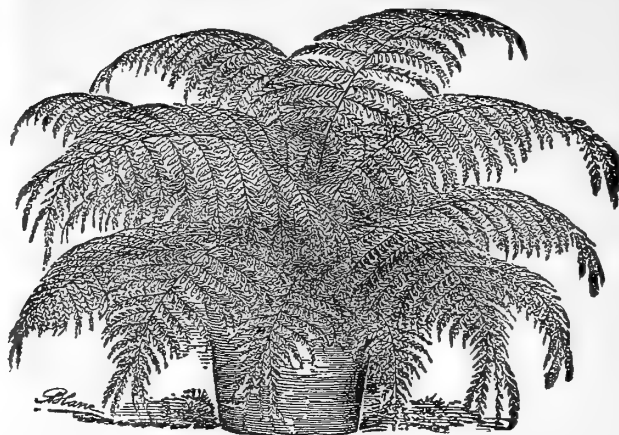

2½ inch pots, 75 cts. per dozen ; \$ 6.00 per 100.

3 " " \$1.25 " 10.00 "

4 " " 2.50 " 20.00 "

FINE FERNS. Choice Varieties of Special Merit.—Continued.

Nephrolepis Exaltata Bostoniensis. (Boston Sword Fern)

A large stock in 2½ inch pots will be ready July 15th, at 75 cts. per dozen; \$5.00 per 100; \$40.00 per 1000.

Large plants will be ready in October and will be offered in our September List.

Pteris Drinkwateri.

Very much on the style of *P. Ouvardi* or *P. Umbrosa*, but of much stronger habit, the best of this type to grow into 5 or 6 inch pot plants.

2½ in. pots, 60 cts. per doz.; \$4.00 per 100; \$35.00 per 1000.

Pteris Longifolia Mariesii.

A variety of recent introduction, producing drooping fronds nearly two feet long; a graceful variety, especially suited to grow suspended from the roof in a pot or basket.

\$1.00 per dozen; \$6.00 per 100.

Pteris Wimsetti.

A scarce variety, of the same type as *P. Cretica Magnifica*, but, in addition to the crest on the ends of the fronds, the pinnæ is peculiarly toothed or lobed on the sides, giving it a most distinct appearance. We have a large stock of this variety, which enables us to offer it a popular price.
